## CAREER OBJECTIVE

I'm a Full Stack Web Developer (Fresher) skilled in React.js, Next.js, and Python(FastAPI). I enjoy building responsive web apps and understanding how frontend and backend connect. During my training, I worked on real-time projects that gave me practical experience. I'm now looking for an opportunity to contribute to a team, continue learning, and grow as a developer.

## PROJECTS

- [Gym Membership Platform](#): A full-featured fitness membership system where users can explore, subscribe, and manage gym plans via a dashboard. Admins can manage plans and track subscriptions, with Stripe-enabled recurring payments.  
**Tech**: FastAPI, Next.js, Stripe, SQL
- [E-commerce Web App](#): A modern e-commerce platform with user authentication, product browsing, cart, wishlist, and secure Stripe payments. Admins can manage inventory, categories, and orders with ease.  
**Tech**: FastAPI, Next.js, Stripe, SQL
- [Bus Ticket Booking System](#): A full-stack bus booking platform where users can search buses, select seats, and book tickets with real-time availability. Includes an admin panel for managing routes and bookings, with Stripe-powered payments and auto ticket generation.  
**Tech**: FastAPI, Next.js, Stripe, SQL

## EDUCATION

Full Stack Web Development   NTS Academy - Jaipur, Rajasthan	(2024 - 2025)
Bachelor of Computer Applications (BCA)	
Maharishi Arvind University, Sirsi Road, Jaipur, Rajasthan – 302041	(Pursuing)

## SKILLS

**Languages**: Python, JavaScript, SQL
